**‘Annually we produce
180,000 lampshades by hand in
our studio in Noordwijk. This
makes us**
immensely proud

AS ONE OF THE FEW COMPANIES IN THE NETHERLANDS,
WE DEVELOP AND PRODUCE HANDMADE LAMPSHADES.

Always on trend

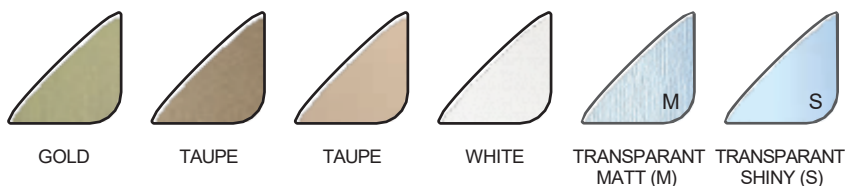

We make sure to be on top of the latest trends by frequently checking new fabrics at our suppliers and developing our own designs. New trends are mostly based on material, print or colour. Introducing our shades into the themes of our collection, we select our colours and designs carefully to create perfect combinations. It is important to us to always test a fabric with and without lighting so we can make sure both look amazing.

How many?

Annually we produce more than 180,000 handmade lampshades; therefore, we are immensely proud of this beautiful product.

Many fabrics to choose from

Because our shade collection consists of many types and prints, we have listed all the fabrics on the right. This gives you a clear overview at a glance. The colour of the reverse side is indicated on the bottom right of the fabric sample.
