

Há um ponto onde o olhar se eleva, onde cada detalhe revela a sua perfeição. Esse ponto é o ZENITH. É esse lugar que procuramos alcançar em cada peça que criamos: um equilíbrio delicado entre design, conforto e funcionalidade, pensado para transformar espaços em experiências memoráveis. Convidamo-lo a imaginar ambientes que inspiram tranquilidade, sofisticação e harmonia, onde cada detalhe conta e cada escolha reflete cuidado e elegância. ZENITH é mais do que um catálogo de mobiliário. É a possibilidade de criar momentos, despertar emoções e deixar uma marca duradoura na memória dos vossos clientes. É a procura pelo auge, pelo ponto onde tudo se alinha e cada espaço revela o seu verdadeiro potencial. Este é o nosso convite: ir além do comum. Reach the Peak É procurar constantemente superar e explorar novos e maiores desafios de qualidade e soluções funcionais, e elevar sempre cada espaço ao seu ponto mais alto. Inspire-se. Impressiona.	There is a point where the look rises, where every detail reveals its own perfection. That point is ZENITH. It is this place we seek to achieve in every piece we create: a delicate balance between design, comfort and functionality, designed to transform spaces into memorable experiences. We invite you to imagine environments that inspire tranquillity, sophistication, and harmony, where every detail counts and every choice reflects care and elegance. ZENITH is more than a furniture catalogue. It is the possibility to create moments, awaken emotions and leave a lasting mark on your customers' memories. It is the search for the peak, the point where everything aligns and each space reveals its true potential. This is our invitation: to go beyond the ordinary. Reach the Peak! It is constantly seeking to surpass and explore new and greater challenges in quality and functional solutions and always elevating each space to its highest point. Be inspired! Impress!

Il existe un point où le regard s'élève, où chaque détail révèle sa perfection. Ce point, c'est ZENITH. C'est cet équilibre que nous recherchons avec chaque pièce que nous créons : un équilibre délicat entre design, confort et fonctionnalité, conçu pour transformer les espaces en expériences mémorables. Nous vous invitons à imaginer des environnements qui inspirent tranquillité, sophistication et harmonie, où chaque détail compte et où chaque choix reflète du soin et de l'élégance. ZENITH est plus qu'un catalogue de meubles. C'est la possibilité de créer des moments, de susciter des émotions et de laisser une trace durable dans la mémoire de vos clients. C'est la quête du summum, le point où tout s'harmonise et où chaque espace révèle son véritable potentiel. Voici notre invitation : dépasser l'ordinaire. Atteindre le Sommet. C'est s'efforcer constamment de relever et d'explorer de nouveaux défis en matière de qualité et de solutions fonctionnelles, et de toujours élever chaque espace à son apogée. Inspirez-vous. Es gibt einen Punkt, an dem sich der Blick hebt – wo jedes Detail seine Perfektion offenbart. Dieser Punkt ist der ZENITH. Genau diesen Punkt möchten wir mit jedem Möbelstück erreichen, das wir gestalten: ein ausgewogenes Zusammenspiel von Design, Komfort und Funktionalität – mit dem Ziel, Räume in eindrucksvolle Erlebnisse zu verwandeln. Wir laden Sie ein, sich Umgebungen vorzustellen, die Ruhe, Raffinesse und Harmonie ausstrahlen – in denen jedes Detail zählt und jede Entscheidung Sorgfalt und Eleganz widerspiegelt. ZENITH ist mehr als nur ein Möbelkatalog. Es ist eine Einladung, Momente zu schaffen, Emotionen zu wecken und einen bleibenden Eindruck im Gedächtnis Ihrer Kunden zu hinterlassen. Es ist das Streben nach dem Höhepunkt – nach dem Punkt, an dem sich alles fügt und jeder Raum sein wahres Potenzial entfaltet. Unsere Einladung: Gehen Sie über das Gewöhnliche hinaus. Reach the Peak. Es bedeutet, sich ständig neuen Herausforderungen zu stellen, höchste Qualitätsstandards anzustreben und jeden Raum auf sein höchstes Niveau zu bringen. Lassen Sie sich inspirieren. Beeindrucken Sie. As madeiras são uma matéria natural viva que está sujeita a deformações por ser um material higroscópico (material que absorve e/ou perde água dependendo do meio ambiente onde se encontra). A cor/coloração dos artigos de madeira depende de diversos fatores tais como a tonalidade da madeira pelo que poderá divergir da amostra de cor assim como de artigo para artigo. Estas diferenças devem ser encaradas como uma característica da matéria-prima e não como um defeito.

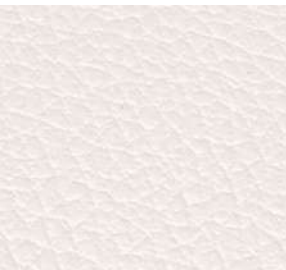

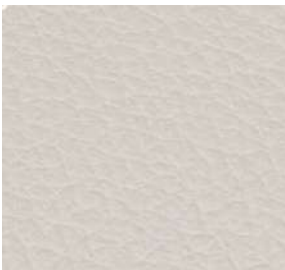

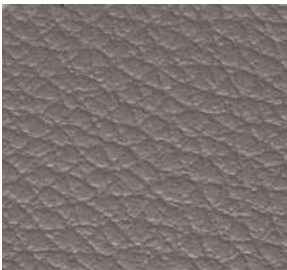

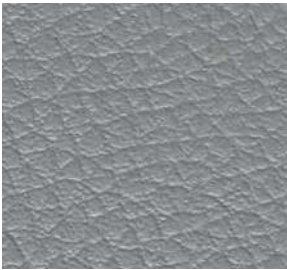

La madera es un material natural vivo sujeto a deformaciones por ser un material higroscópico (material que absorbe y/o pierde agua en función de su entorno). El color/la coloración de los artículos de madera depende de varios factores, como la tonalidad de la madera, por lo que puede diferir de una muestra de color a otra, así como de un artículo a otro. Estas diferencias deben considerarse una característica de la materia prima y no un defecto.

Le bois est un matériau naturel vivant qui est sujet à des déformations car c'est un matériel hygroscopique (matériel qui absorbe et/ou perd de l'eau en fonction de son environnement). La couleur/coloration des articles en bois dépend de plusieurs facteurs tels que la nuance du bois et peut donc différer d'un échantillon de couleur à l'autre ainsi que d'un article à l'autre. Ces différences doivent être considérées comme une caractéristique de la matière première et non comme un défaut.

Wood is a living natural material that is subject to deformation because it is a hygroscopic material (material that absorbs and/or loses water depending on its environment). The colour/colouring of wooden articles depends on several factors such as the shade of the wood and may therefore differ from one colour sample to another as well as from one article to another. These differences should be seen as a characteristic of the raw material and not as a defect.

Holz ist ein lebendiges Naturmaterial, das sich verformen kann, da es ein hygroskopisches Material ist (Material, das je nach Umgebung Wasser aufnimmt und/oder verliert). Die Farbe / Färbung von Holzartikeln hängt von verschiedenen Faktoren ab, wie z. B. dem Farbton des Holzes, und kann daher von einem Farbmuster zum anderen sowie von einem Artikel zum anderen abweichen. Diese Unterschiede sollten als eine Eigenschaft des Rohmaterials und nicht als Mangel angesehen werden.
